

**Haliburton, Kawartha, Pine Ridge District Health Unit
RRFSS (2007) Mammography I**

Proportion of women (35+) who have heard of the Ontario Breast Screening Program (OBSP), RRFSS January - December 2007

Table 1: Mammography (overall)

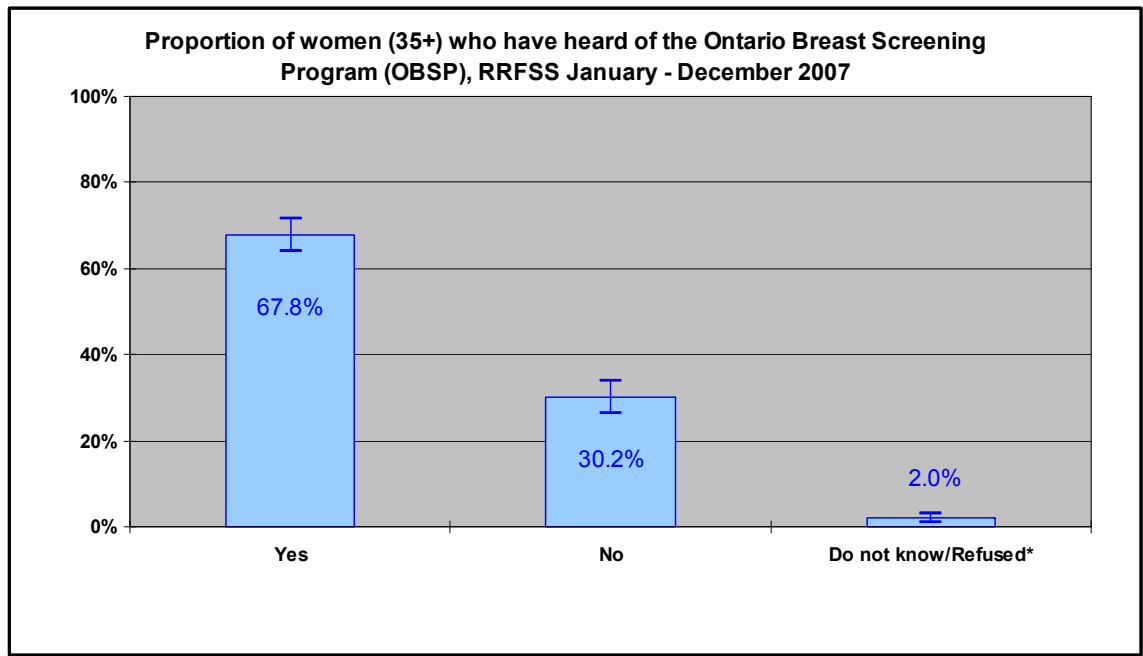

Heard of OBSP	Proportion	95% upper confidence limit	95% lower confidence limit
Yes	67.8%	71.7%	64.0%
No	30.2%	34.0%	26.4%
Do not know/Refused*	2.0%	3.2%	0.9%

* Interpret with caution, high variability

** Data not released

sample size 567

Figure 1: Mammography (overall)

Interpretation:

67.8% (+/-4%) of women (35+) reported that they have heard of the Ontario Breast Screening Program.

30.2% (+/-4%) of women (35+) reported that they have not heard of the Ontario Breast Screening Program.

2.0%* (+/-1%) of women (35+) responded that they did not know the answer to this question or they refused to answer.

Proportion of women (35+) who have heard of the Ontario Breast Screening Program (OBSP), by education level, RRFSS January - December 2007

Table 2: Mammography (by education)

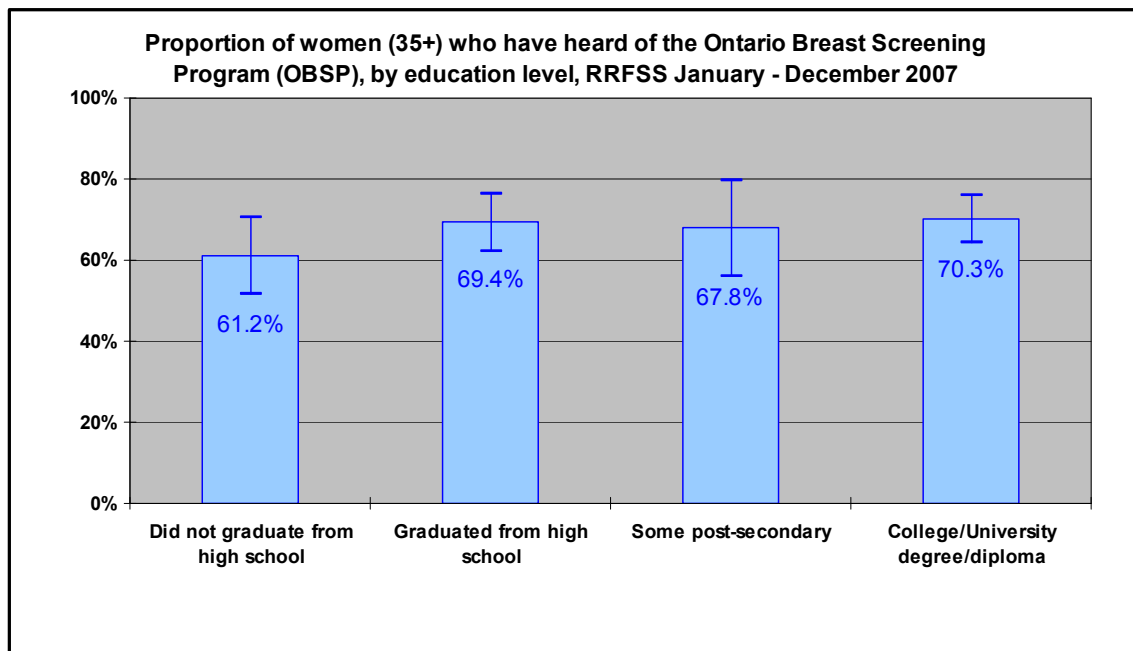

Heard of OBSP	Proportion	95% upper confidence limit	95% lower confidence limit
Did not graduate from high school	61.2%	70.7%	51.7%
Graduated from high school	69.4%	76.5%	62.2%
Some post-secondary	67.8%	79.7%	55.9%
College/University degree/diploma	70.3%	76.2%	64.5%

* Interpret with caution, high variability

** Data not released

sample size 562

Figure 2: Mammography (by education)

Interpretation:

61.2% (+/-9%) of women (35+) who have not graduated from high school reported that they have heard of the Ontario Breast Screening Program.

69.4% (+/-7%) of women (35+) who have graduated from high school reported that they have heard of the Ontario Breast Screening Program.

67.8% (+/-12%) of women (35+) who have graduated from high school and have completed some post-secondary education reported that they have heard of the Ontario Breast Screening Program.

70.3% (+/-6%) of women (35+) who have completed a college or university degree or diploma reported that they have heard of the Ontario Breast Screening Program.

Limitations:

1. Questions only asked of adult residents aged 18+.
2. Telephone survey only conducted in English.
3. Results are based on self-reported behaviours.
4. (*) indicates that results are based on small sample size, thus estimates have high variability.

Notes:

- 1) The numbers in the tables and graphs are weighted.
 - 2) Missing responses are not included in the analysis.
 - 3) Don't know and refused responses are analyzed according to RRFSS analysis guideline.
 - 4) Release criteria of the data are according to RRFSS analysis guideline.
- * Interpret with caution, high variability.
** Data not released.
