

Rapid Risk Factor Surveillance System

Haliburton, Kawartha, Pine Ridge District Health Unit RRFSS (2007) Recreational Facilities - Trails

Proportion of adults who are aware of and/or have used bike/walking or nature trails in the past 12 months, RRFSS January - December 2007

Table 1: Recreational Facilities -- Trails (overall)

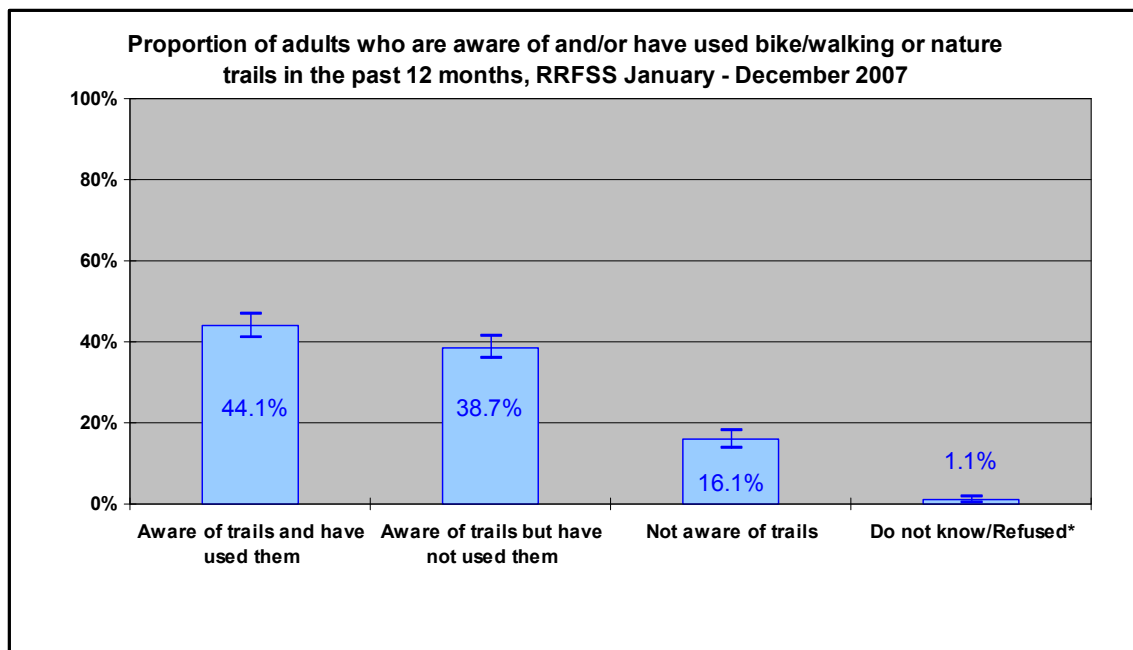

Awareness and use of bike/walking/nature trails	Proportion	95% upper confidence limit	95% lower confidence limit
Aware of trails and have used them	44.1%	47.0%	41.2%
Aware of trails but have not used them	38.7%	41.5%	35.8%
Not aware of trails	16.1%	18.3%	14.0%
Do not know/Refused*	1.1%	1.7%	0.5%

* Interpret with caution, high variability

** Data not released

sample size 1126

Figure 1: Recreational Facilities -- Trails (overall)

Interpretation:

44.1% (+/-3%) of adults (18+) reported that they are aware of bike/walking or nature trails in their community and they have used them in the past 12 months.

38.7% (+/-3%) of adults (18+) reported that they are aware of bike/walking or nature trails in their community but they have not used them in the past 12 months.

16.1% (+/-2%) of adults (18+) reported that they are not aware of bike/walking or nature trails in their community.

1.1%* (+/-1%) of adults (18+) responded that they did not know or refused to answer this question.

Limitations:

1. Questions only asked of adult residents aged 18+.
2. Telephone survey only conducted in English.
3. Results are based on self-reported behaviours.
4. (*) indicates that results are based on small sample size, thus estimates have high variability.

Notes:

- 1) The numbers in the tables and graphs are weighted.
 - 2) Missing responses are not included in the analysis.
 - 3) Don't know and refused responses are analyzed according to RRFSS analysis guideline.
 - 4) Release criteria of the data are according to RRFSS analysis guideline.
- * Interpret with caution, high variability.
** Data not released.
