Knowledge regarding restaurant with " Award of excellence"	Proportion	95% upper confidence limit	95% lower confidence limit
A lot	39.2%	44.7%	33.7%
A little	35.7%	41.1%	30.3%
Not at all	20.0%	24.5%	15.5%
Don't know / Refused (*)	5.0%	7.5%	2.6%

*Interpret with caution, high variation

sample size 306

Interpretation:

- 39.2% (+/-5.5%) adults (age 18+) said that the "Award of excellence" influence their decision on selection of restaurants a lot
- 35.7% (+/-4.7%) adults (age 18+) said that the "Award of excellence" influence their decision on selection of restaurants a little.
- 20.0% (+/-2.1%) adults (age 18+) said that the "Award of excellence" not at all influence their decision on selection of restaurants.
- 5.0% (+/-2.1%) adults (age 18+) did not respond to the question.

* data released with warning to interpret with caution due to high variation

** data not released for adults who did not know the answer or refused to answer due to small cell size

Limitations:

1. Questions only asked of adult residents aged 18+
2. Telephone survey only conducted in English
3. Results are based on self-reported behaviors.
4. (*) indicates that results are based on small sample size, thus estimates have high variability.

Notes:

- 1) The numbers in the tables and graphs are weighted.
 - 2) Missing responses are not included in the analysis.
 - 3) Don't know and refused responses are analyzed according to RRFSS analysis guideline.
 - 4) Release criteria of the data is according to RRFSS analysis guideline.
- * Interpret with caution, high variability.
** Data not released.
