

Rapid Risk Factor Surveillance System

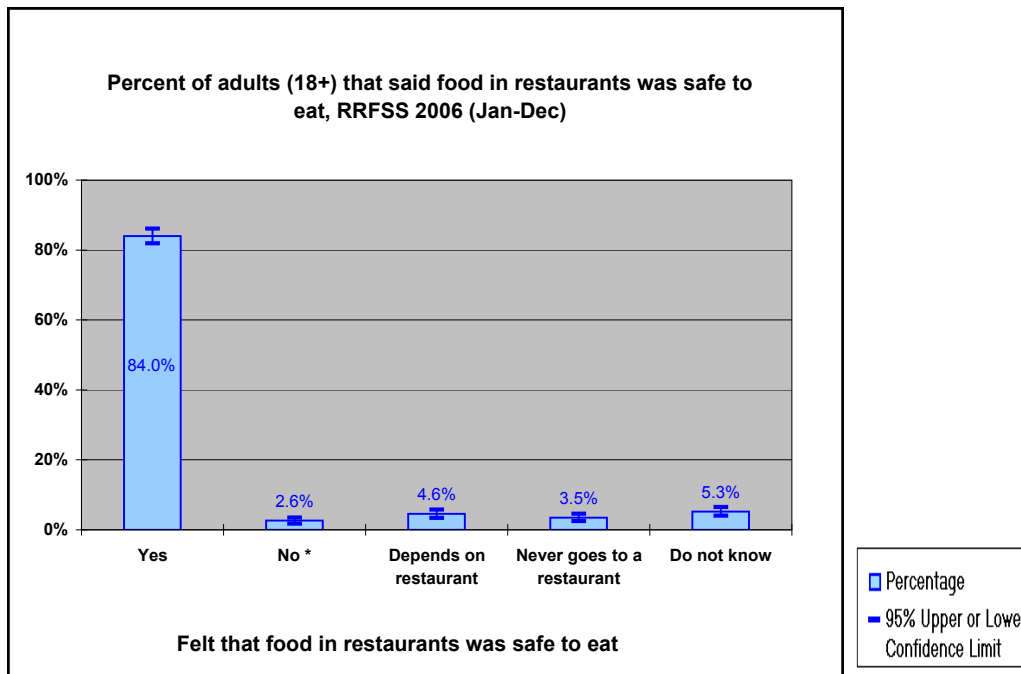

Haliburton, Kawartha, Pine Ridge District Health Unit RRFSS 2006 (Jan-Dec) - Food Safety

Percent of adults (18+) that said food in restaurants was safe to eat, RRFSS 2006 (Jan-Dec)

Felt that food in restaurants was safe to eat	Proportion	95% upper confidence limit	95% lower confidence limit
Yes	84.0%	86.1%	81.9%
No *	2.6%	3.5%	1.7%
Depends on restaurant	4.6%	5.8%	3.4%
Never goes to a restaurant	3.5%	4.5%	2.5%
Do not know	5.3%	6.5%	4.0%

* Interpret with caution, high variability

Sample size: 1193

Interpretation:

84.0% (+/-2.1%)	adults (age 18+) that said food in restaurants was safe to eat
2.6% (+/-0.9%)	adults (age 18+) that said food in restaurants was not safe to eat*
4.6% (+/-1.2%)	adults (age 18+) said that safety of food depends upon the restaurant
3.5% (+/-1.0%)	adults (age 18+) said that they never go to the restaurant
5.3% (+/-1.3%)	adults (age 18+) did not know the answer

Limitations:

1. Questions only asked of adult residents aged 18+
2. Telephone survey only conducted in English
3. Results are based on self-reported behaviors.
4. (*) indicates that results are based on small sample size, thus estimates have high variability.

Notes:

- 1) The numbers in the tables and graphs are weighted.
- 2) Missing responses are not included in the analysis.
- 3) Don't know and refused responses are analyzed according to RRFSS analysis guideline.
- 4) Release criteria of the data is according to RRFSS analysis guideline.

* Interpret with caution, high variability

** Data not released.
